

# Respiration

## Across

1. - The primary fuel for cellular respiration.
4. - Organelle responsible for cellular respiration.
7. - Process that occurs in the absence of oxygen.
9. - The initial step in both aerobic and anaerobic respiration.
10. - Organs responsible for gas exchange in humans.

## Down

2. - Waste product released during respiration.
3. - Also known as the citric acid cycle.
5. - Gas required for the final electron acceptor in aerobic respiration.
6. - Process that requires oxygen.
8. - Adenosine triphosphate, the energy currency of the cell.
